- Digital Broadcasting Solution

Profile of Company

ACETEL is the leading System Integrator and Solutions Provider in Korea. ACETEL partners with world-class broadcast solution companies to rise to the top of our field gaining knowledge and expertise. No other company boasts the experience ACETEL has in the Digital Broadcast market.

ACETEL also develops and manufactures a high-end Professional IRD which is both functional and very cost-effective, and a professional monitoring device. Our new UMT 8000 series and the MD2000 series will effectively meet the compelling demands of our clients worldwide.

Another sector ACETEL is very excited about is the Digital Out-of Home Media or the Digital Signage sector. Digital Signage is the new channel of mass and targeted marketing of client's products and services. With over a decade of our engineering and integration expertise, ACETEL is ready to help businesses effectively advertise as well as exhibit their products in an open or closed market.

PRODUCTS

> UMT8000

- 1 RU chassis, MAX 8 slot available, true modular structure
- 20*4 LCD, 3 status LED, 20 user key, 2 independent RJ45
- Power option: standard, redundancy, easy swap, DC 48V
- Temperature monitoring and dynamic fan control
- Power and fan fault detection and alarm. SNMP. Hot swap

> MD 2000

- Multi-Input Format
- Superior video Output Quality
- Multi-Channel Audio leveling
- Flexible layout
- Alarm Log

> CRYSTAL PROMPTER VJ-P17, P15

- Fits all types of cameras professional to DV
- Thin glass screen for picture clarity
- Beam splitter glass clear legibility
- Constructed of high quality Duralumin
- Folding style for portability and storage
- Scrolls Top to Bottom or Right to Left
- Supports English and Japanese Characters
- Supports PowerPoint, text, images

> SMART PROMPTER VJ-TP10

- Features
 - Made for Tablet PCs 7 to 10 inches
 - Small and portable, convenient to carry around
 - Mount fits most professional cameras (EFP, ENG, HDV, DV)
 - Use Downloadable script app for Apple or Android
 - Smart Phone Controller option
 - No need for bulky Teleprompters

Profile of Company

21 years' experience for commercial sound fields make us a leading manufacturer for public address equipments in Korea

PRODUCTS

➤ POWER AMPLIFIER (DPA-2330)

- Its low noise and high output circuit that ensures the signal to noise ratio above 95dB and low distortion rate under 0.5% assures high performance.
- Its gain-adjusting volume function enables the variation up to-12dB+.
- Its temperature detector ensures the control of output by monitoring the rise of temperature caused by overload or excessive input.
- The output level displayer facilitates the output verification. In addition, its highly reliable parts ensure high performance.

> EMERGENCY PANEL (DEP-2206)

- Being connected with the fire detector, it ensures the unmanned activation of siren and emergency escape alarm in case of fire.
- With its built-in voice file, it ensures the activation of emergency escape alarm, and is capable of recording the 'escape alarm broadcasting' with its built-in key microphone(16 seconds).
- The emergency escape alarm sound can be activated manually based on the interlocking operation system in case of fire.

> POWER AMPLIFIER HALF-RACK TYPE (DPA-1330)

- Its low noise and high output circuit that ensures the signal to noise ratio above 95dB and low distortion rate under 0.5% assures high performance.
- Its gain-adjusting volume function enables the variation up to 12dB.
- Its temperature detector ensures the control of output by monitoring the rise of temperature caused by overload or excessive input.
- The output level displayer facilitates the output verification. In addition, its highly reliable parts ensure high performance.

> EMERGENCY PANEL HALF-RACK TYPE (DEP-1241)

- Being connected with the fire detector, it ensures the unmanned activation of siren and emergency escape alarm in case of fire.
- With its built-in voice file, it ensures the activation of emergency escape alarm, and is capable of recording the 'escape alarm broadcasting' with its built-in key microphone(16 seconds).
- The emergency escape alarm sound can be activated manually based on the interlocking operation system in case of fire.

> PORTABLE AMPLIFIER (DPA-2324CT)

- Based on low-noise and high output circuit, its switch for its 5 speakers and overall units ensures the broadcasting without any constraint.
- Direct current power(BATTERY DC24V) can be used in case of power outage.
- The THERMISTOR, installed in the HEAT SINK, controls the output in the case of abnormal temperature caused by excessive input or overload.
- CD/TUNER function enables various application.
- Digital tuner and DECK, CD can be used freely if compatible(optional).
- Microphone ranging from 1 to 3(PANTEM POWER), and signals such as TUNER,CD,AUX,CHIME/SIREN, and others, can be mixed.

Profile of Company

We, JD-MEDIA, are proud to explain our vision of future.

35 years'good experience for public address fields make us highst quality and sophistcated products as a leading manufacturer for public address equipments in korea.

we have accumulated technology and know-how in the field of industrial imaging, and with practical experience of working in cooperation with various telecommunication business.

we have focused on developing digital public address equipments including booster amplifiers and mixing amplifiers. so, your best support will be get there because your interest and confidence is the key to our success.

we will do our best to fulfill their needs.

PRODUCTS

▶ T-1310/2510/5010

▶ S-1310/2520/5020

Features

- High efficiency PWM CLASS-D power amplifier
- Micro processor to control all of amplifier function by MICOM
- High efficiency S.M.P.S circuit (AC/DC, DC/DC)
- Full protection circuit (Input Limited / Over Current / Over Load / Over Temperature)
- 2 step power circuit (Stand-by) for lowest power consumption
- Input E/M trigger, E/M message for SD card is broadcasted automatically for the evacuation
- RS 485 communication to control amplifier by PC (Power ON/OFF / Amplifier Monitoring / Volume Control)

OUT-TYPE	ATTENUATOR TYPE (T SERIES)			SELECTOR TYPE (S SERIES)		
MODEL	T-1310	T-2510	T-5010	S-1310	S-2520	S-5020
RATED OUTPUT	130W	250W	500W	130W	250W	500W

Products

- Digital(ATSC, DTB-T) TV Transmitter
- UHFTV BROAD BAND Panel antenna
- UHF Parabolic type antenna receiving
- Vhftv broad band panel antenna
- Vhffm broad band panel antenna
- DMB Transmitting System

Key Account

- Mostly Korean Market so far. KBS, MBC, SBS and other commercial broadcasters

Profile of Company

Jinmyung Communications established in 1995 professionally manufactures and provides equipments related to TV and Radio Broadcasts such as AM, FM, TV Transmitters, TV, FM Translators and Antennas so on to Broadcast Industry such as KBS, MBC, SBS, CBS, FEBC etc. Additionally, We finished developing Digital TV Transmitter / Translators cooperating with LG Electronics for the first time in Korea(2002) and now manufacturing and providing them. Our products are manufactured in our own factory under quality control system with ISO 9001. Supplied 700 sets of DTV Transmitter through 2010 ~ 2012.

PRODUCTS

➤ DIGITAL TV TRANSMITTING TURNKEY SYSTEM

- Digital TV Transmitter(ATSC, DVB-T, ISDB-T), Main Feeder, Power Divider, Branch(Tier) Cable Assy. & Antenna Panel

> DIGITAL TV TRANSMITTER

DTVR 20W Passive Reserve System

DTVT 1kW Passive Reserve System

- ATSC, DVB-T(2), ISDB-T Available
- Remote Control (Ethernet / fixed IP or RS422 Communications)
- LD-MOS Transistor HPA (Superior Performance in UHF Wideband)
- UHF 1W ~ 2500W Average Output Power (after Mask Filter Output)
- Each Unit independent Forced Air Cooling Type
- Each Unit independent Power Supply allows easy inspection & trouble shooting
- Arrester & Noise Filter installed to protect from Surge

- Bandwidth	: UHF Wide Band(470~810MHz)	- Output Connector	: 7/8" , 1 5/8" or 3 1/8" EIA Flange
- Output	: up to 2.5kW(after BPF)	- Cooling	: Forced Air Cooling
- Gain	: better than 60dB	- Dimensions	: 2000(H) x 600(W) x 1100(D)mm
- Impedance	: 50 ohm	- Weight	: 400kg
- IMD	: -40dB	- Operating Temperature	: -10 ~ 45℃
- SNR	: 38dB	- Power Source	: AC 380, 3 Phase, 4 Wires, 50/60Hz
- Input Connector	: N Female		

DTV Transmitter & DTV Exciter, Pass TTA Verification Test

> UHF WIDEBAND PANEL ANTENNA

- Frequency	: UHF(470~860MHz Wideband)
- Polarization	: Horizontal
- Return Loss	: UHF (470~860MHz Wideband) >26.4dB
- Power Rating	: 1.8kW with 7/8" EIA Flange Input 5kW with 1 5/8" EIA Flange Input
- Impedance	: 50 ohm
- Gain (1Panel)	: 10.9dB @470MHz, 12dB@630MHz
- Front to Back Ratio	: Better than 15dB
- Wind velocity (max)	: 225Km/h
- Lightning Protection	: DC Grounded
- Weight	: 12kg

UHF Wideband Panel

Products

- LED studio stage lighting, architectural lighting

Key Account

- KBS, NHK, Korea cartier, EBS, M-net Korea. W-hotel

Profile of Company

Kirin precision co.,ltd has been the major partner company of samsung electronics for 30years
High level quality control and reliable technology has been proved by many awards given by Samsung electronics such as "Production innovation of the year" and "Best partner company". In 2008, leveraging own know-how, company decided to expand the business portfolio to professional LED special lighting fields such as stage, architectural and searchlight for military or security. Under the brand name of "LUMISIA", LUMI series were launched in 2009. " Company closely co-working with KBS(Korea national broadcasting system) and special lighting experts in Korea and Japan to meet the customer's true needs.

PRODUCTS

> LUMI 700

- LED Zoom moving head
- Zoom : 7° ~ 30° Motorized zoom
- Philips luxeon rebel 126LEDs
- Natural flow dimming
- Flicker Free

> LUMI 500

- LED moving head
- Philips luxeon rebel 84LEDs
- Sub-lens system
- Natural flow dimming
- Flicker Free

> ARSIA 500

- LED IP65 Lighting
- The brightest LED IP65 lighting.
- Philips luxeon rebel 84LEDs
- Flicker Free, Sub-lens system

> LUMI B MINI WIRELESS

- LED wash
- Battery operating, Wireless
- 3.5kg compact size

Products

- PA system, amplifier, speaker etc

Profile of Company

I am delighted to extend my warmest greeting to you.

Over 30 years since we founded Karak in 1977, we have achieved solid growth in audio, video, security and PA(Public Address) system business. All of the outstanding performance that Karak has attained became to fruition through the trust and affection of customers and cooperative parties who expressed interest in Karak.

Karak is taking our first step into the next 30 years.

We will exert ourselves to world audio and PA market to provide valuable audio and PA experience for world potential customers.

Eventually we will be the one who create and give back more value to the world potential customers.

At Karak, all our members are preparing for a new next 30 years.

Once again, I wish to extend my sincere welcome to you and hope that you may take joyful for Karak via our online site.

Thank you.

PRODUCTS

> NANTA SERIES

- Table type PA amplifier

Features

- SPEAKER SELECT : Five speaker select switches enable to select five zones each or all zones
- EXTERNAL CHIME, SIREN and MUTE
- TELEPHONE PAGING
- Automatically override for higher priority : 3 priority groups (1. Ext Mute 2. Remote Amp 3. Mic1, Chime/Siren, Tel In)
- TONE CONTROL : Separate Bass and Treble controls to adjust your sound
- VERSATILE AND EASY TO USE : Adopted four MIC inputs and two AUX inputs

Features	Description		
	NANTA 600B	NANTA2000B	NANTA3000B
Rated output power (RMS)	60W	120W	240W
Output Impedance	4Ω	4Ω	4Ω
	8Ω	8Ω	8Ω
	100V/167Ω	100V/83Ω	100V/41Ω
Input Sensitivity MIC 1,2,3,4	-50dB/600Ω (Balanced)		
Input Sensitivity AUX 1,2	-10dB/10kΩ (UnBalanced)		
Input Sensitivity Line In	0dB/600Ω (UnBalanced)		
Tel In Sensitivity	0dB/600Ω (UnBalanced)		
Frequency Response	60Hz ~ 20KHZ (±3dB)		
T.H.D (1KHz)	1% (Less than)		
S/N Rated	85dB (More than)		
MP3 Player	USB flash disk and SD card		
FM Tuner	FM Radio, storable stations		
External Control	Terminal for external Chime/Siren/Mute		
Remote call station	SUB D15 pin connector for accessing remote call station		
Priority 1	Ext Mute (MIC 1, Line In, Chime/Siren)		
Priority 2	Remote Amplifier		
Priority 3	MIC 1, Chime/Siren, Tel In		
Speaker Selector	SP 1, 2, 3, 4, 5 or ALL		
Power Consumption	150W	370W	680W
Power Supply	AC220V~240V, 50/60Hz, DC 24V		
Weight	6Kg	15Kg	18Kg
Dimensions (Without Bracket)	420(W) x 88(H) x 340(D)mm		
Dimensions (With Bracket)	483(W) x 88(H) x 340(D)mm

PRODUCTS

➤ TRAMP-USD

- Output : 50W
- Weight : about 8kg
- Size : 205(W) × 245(D) × 270(H)mm
- Portable AV multi-media solution of DVD and USB, SD-Card player suitable for DVD, VCD, SVCD, MP3CD discs together with superb 50-watt amplifier and wireless microphone system.

➤ TRAMP-PC30

- Output : 50W
- Weight : about 8kg
- Size : 205(w) x 245(D) X 270(H)mm
- Popular multi-media model for dance and aerobics featuring a DVD/USB/SD-CARD player and superb variable pitch control which permits variation of +30% -30% without octave change. Wireless microphone enhanced by adjustable voice-priority which overrides music playback level.

➤ CHAMP-PC30D

- Output : 100W
- Weight : about 17kg
- Size : 270(W) x 270(D) x 410(H)mm
- Full featured multi-media model with powerful 100 watt PA amplifier and wireless microphone system. The DVD, USB, SD-CARD player is interfaced with a TFT monitor that can show video playback of DVD and aid selection of music tracks for play back through display of file contents.

➤ TROJAN-380

- Output : 380W
- Weight : about 28kg
- Size : 340(W) x 380(D) x 530(H)mm
- Max.380 watt high-efficiency bridged digital amplifier equipped with DVD, USB, SD-CARD player and each 2 of wireless and wired microphone. All channels has independent Treble / bass tone controls.

PROFESSIONAL LINE ARRAY SYSTEM (TD SERIES)

> TD-826H/TD-123H/TD-153H/TD-182W

TD series system development was driven by the need for a high-level concert touring system which can provide the uniform, predictable coverage that only a line-array speaker system can deliver. Drawing on classical linear array principles, these systems utilize advanced engineering to optimize line array performance for reliable coverage across the full frequency range of operation. The TD line array system provides wide horizontal dispersion from a single, vertical line-array with exceptional coherent wave front summation in the vertical plane. TD line array speaker systems are scalable to suit any fixed or touring application, from large conference rooms and theatres to houses of worship, sports arenas, and vast outdoor music festivals

PROFESSIONAL LINE ARRAY SYSTEM (T-LINE SERIES)

> T-LINE 61S/TW6/T-LINE81K/T-SUB1

The T-Line series uses advanced divergence shading technology where all loud speakers are powered at equal level. A full T-Line array can provide uniform sound coverage from directly beneath itself out to hundreds of feet without complex signal processing. Vertical coverage for the array is set by varying the rear splay of the enclosures.

This configuration produces a continuous, coherent waveform from the array, projecting extended range, high resolution sound over its full coverage area.

T-Line array speaker systems are scalable to suit any fixed or touring application, from hotel meeting rooms to houses of worship, convention hall, and vast outdoor music festivals.

POWER AUDIO AMPLIFIER

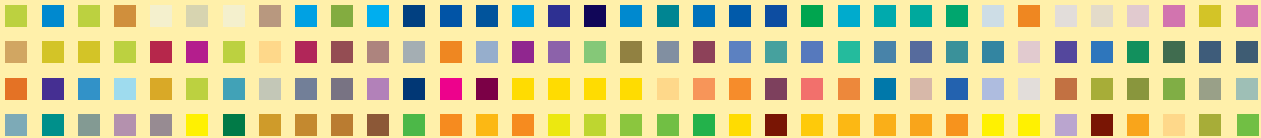

> FT-5000/6000/7000

FT Series are class AB/H power amplifier that provides high power with low distortion for sound reinforcement system. Due to qualified film condenser and multi-layered capacitor, FT series amplifier reproduces clear and dynamic sound. All are rugged and lightweight.

- Exceptionally high power handling
- 2U rack mounting
- FT7000, FT6000 : Class-H Type Amplifier
- FT5000: Class AB Type Amplifier
- High damping factor
- Independent volume control for each channel, hospitable operation)
- Maximum 760/1300/2200 watts power handling when bridged operation at 8 Ohm
